COURSE HOME CLASS NOTES AND HOMEWORK RESOURCES

Find and link to three examples of websites that are well written and three websites that are badly formatted.
Explain in a paper why each website is bad or good. Upload this here or turn it in to me in class.

Available from: Thursday, December 31, 2009, 09:00 PM
Due date: Tuesday, December 31, 2010, 09:00 PM

Dates and times are posted

What is an Assignment?

An assignment activity lets you collect work from learners. The submitted work can be reviewed and graded. There are a number of ways learners can submit assignments:

- Upload files
- Enter text
- Complete an activity offline

Why Do I Need Assignments?

- Assignments are great ways to interact with your learners in a facilitated (instructor-led) course.
- Assignments allow you to verify that learners understand your material.
- The ability to grade an assignment means you have a gradebook record to prove learner achievement.
- The ability to receive assignments in many formats means that learners can respond in a number of creative ways that best suit individual learning styles.

How Do I Create an Assignment?

To create an assignment:

- Choose an assignment type from the Activities dropdown on the Manage Activities tab
- Fill in the assignment form
- Add your new assignment to a course page
- Login to provide feedbacks and grades
