

ENHANCED REPORTING

Today's accreditors and government regulators demand extensive record-keeping. Create and track user records based on your own custom criteria--registration data, course enrollment dates, quiz scores, online tuition collected, and more. Reports can be downloaded from your site administration panel to your desktop as .CSV files for further sorting and data manipulation. Real-time data integration to third-party information systems is available upon request.

Steps

1. Purchase option: define the fields you need
2. Set Up a Test Course and Test Users
3. Download Reports from the Site Administration menu

Report Types

- Campus Report
- Course Overview
- Logs
- Statistics
